

CAN YOU BE FOUND IN AN EMERGENCY?

One of the questions that is asked when you call "9-1-1" for assistance is: "What is your address?" Many addresses in our area require that the caller give 911 detailed information on how to find their driveway or access road in order for emergency responders to provide rapid assistance. Instructions like, "Take the third driveway from the intersection and turn right and then go to the second left and we live in the blue house."

The Quincy Fire Department will be making available 6" x 13" reflective address signs and mounting post to all interested property owners of the fire district. These signs are installed at the beginning of the driveway or common access road to properly identify your residence from the street. If the common access serves several homes, it may be necessary to place additional signs to clarify the entrance to your home.

Our goal is to have all occupancies with LEGIBLE and VISIBLE addresses. To achieve this goal, we ask for your assistance. Please print out our application form, fill it out completely and return it, along with \$15.00 for each sign ordered to:

Sign Placement: We will attempt to place signs in consistent locations, to allow for easy identification of your property. Variations may occur due to underground utilities and landscaping.

Mailbox: Your sign may be attached to your mailbox; Mailbox mounting brackets are available at no additional cost.

*If a separate post is needed we have them available for \$5.00.

Address Changes: Occasionally it is necessary to change your address for clarity and consistency to match the 911 address criteria. The fire department and the fire protection district assume no responsibility in assigning or changing address numbers. Contact: Plumas County Planning and Building Dept for address change information.
